Envelopes, Notebooks, Folders, Books,  
OFFICE AND STATIONERY

## The Company

GPK Brasil is a complete solution company that operates in the school, office and organization materials segment. It also operates both in the manufacture of customer brands and in the plastic packaging market for various segments. In addition, the company offers competitive pricing and excellent customer service.

For over years of paper product manufacturing experience, our company ranks amongst the top Brazilian' companies of the stationary sector. Besides paper's products, the group offers a range of items like laminated plastic products, extruded plastic products, high frequency welding, sewing products (special folders, card holder, and others).

Its' product mix is made of many product lines such as envelopes, special invitations, special papers, pedagogic (school) products, children's book, PP and hard cover notebooks, agendas, organizers, folders, binders, plastic envelopes, badges.

All work developed with innovative attitudes, lots of respect to people involved, love, dedication, long-term partnerships, and social responsibility.

## ✓ Mission

Promote organization from the office to the classroom, through innovative and accessible products, designed, manufactured and marketed by a qualified team committed to results, ensuring the solidity and growth of the company, suppliers, employees and customers.

## ✓ Vision

To be recognized as a complete solution company in the organization, school and office materials segment, to obtain customer preference by providing access to top-notch products, guaranteeing the quality of its brands and the brands it manufactures for third parties.

## ✓ Values

Ethics and transparency – Simplicity, efficiency and obedience to laws;

Teamwork and diversity – Integration of skills, respect and protection for employees and suppliers;

Continuous improvement – The virtuous cycle of growth and longevity, innovation, technology and knowledge.

### ✓ FSC Forest Stewardship Council®

The company is proud to obtain FSC® certification, whose mission is to promote responsible forest management and the rational use of the forest, through a set of standards called Principles and Criteria, which aim to guarantee the long-term existence of the forest.

### ✓ P-LIFE – Biodegradable for plastics

Certified by Technical Research Institute of Sweden, n. SC 064610

For plastic packaging, GPK plans a useful life of at least 2 years for the degradation process to begin. (Oxidation, Degradation and Biodegradation, if they are discarded in an appropriate environment).
